***City Manager's Budget Message  
2013 Annual Budget***

***Dear Citizens, Mayor and City Council of Spokane Valley:***

I am pleased to present the attached 2013 proposed budget for the City of Spokane Valley. In a continuing trend of local and national economic challenge, the City of Spokane Valley remains strong and continues to benefit from a history of prudent financial decisions since our 2003 incorporation. Careful budgeting and restrained spending leaves us almost unique among cities in providing a balanced budget and a substantial ending fund balance.

During this past year we have heard and read stories of Cities such as Stockton and San Bernardino, California going bankrupt. Dozens if not hundreds of Cities face drastic budget reductions and uncertain futures. The City of Spokane Valley is in sound financial condition. In fact, Spokane Valley is a stellar example of how a City can function efficiently and economically while providing key services to the community. Our employee count and personnel expenses are among the lowest (if not the lowest) in the nation.

To ensure continued financial stability it is imperative that the City keep its recurring expenses in check. To do this, we must continue to limit our spending to match our annual revenues. To meet this objective, the City has incrementally reduced recurring expenses over the past three years and kept our Ending Fund Balance intact.

There is an important exception to the spending limitations. In 2012, the City initiated spending of general fund, special fund and capital project fund revenues and reserves for the sole purpose of aiding street preservation. In 2012 and again in 2013 our citizens will see an aggressive program of repaving our roadways. Some may question paving roads that "don't look so bad." The truth is the best time to repave is before a road deteriorates to the point that full reconstruction is necessary. Full reconstruction can cost substantially more than pavement preservation such as crack sealing or grinding and repaving. That is why the City of Spokane Valley has committed critical financial resources to preservation of our transportation infrastructure.

## ***Fiscal Policies***

The Fiscal Policies adopted by the City Council are an important element in the long range budget view. These policies, comprised of Financial Management, Financial Objectives and Commitment, appropriately dictate that if the economic conditions deteriorate more than anticipated, future budget reductions may be triggered. The current budget forecast gives us hope these future reductions or service cuts will not be necessary and elected officials and staff remain committed to ensuring that service levels are commensurate with the revenue sources currently in place.

As noted with few exceptions for non-recurring expenses, we have not tapped into reserves to balance our general fund. During each budget cycle, the City will review the reserve balance and determine if additional budget cuts are needed.

**Financial Management** – The City proposes to:

1. Maintain basic service levels with reduced resources
2. Minimize personnel costs/overhead by continuing to contract for many services
3. Continue the 6-year Business Plan process
4. Leverage City funds with grant opportunities
5. Minimize City debt with a pay as you go philosophy
  - The State of Washington sets the maximum level of allowable debt for cities based on assessed value of property. The City of Spokane Valley currently utilizes only 1.49% of its total allowable debt capacity, and more importantly, only 7.46% of non-voted bond capacity. This is extremely low debt.

**Financial Objectives** - The City's financial objectives are:

1. Maintain a minimum General Fund Ending Balance of 50% of revenues.
  - The City can meet this objective and transfer funds to Capital Reserves as follows: \$7,826,207 to Fund #312 Capital Reserve Fund
2. If necessary, utilize the Service Level Stabilization Reserve Fund (\$5.4 million) to maintain ending fund balance minimum.
3. Service Level Stabilization Reserve Fund will not reduce below \$3.24 million (60% of \$5.4 million).
4. Property tax assessment will remain the same as 2012, and the City will forego the 1% annual increase allowable by RCW 84.52.050. We anticipate this will result in a levy of \$10,943,700 for 2013. The 1% increase capacity will be banked for future use as provided by law.

**Commitment** – By committing to these objectives, the City will ensure financial sustainability well into the future. The City can achieve this by:

- Holding 2013 recurring expenses to a maximum 1% increase over 2012.

Notably, this objective was achieved prior to adding a Pavement Preservation element to the budget. See following section **Budget Highlights – New Pavement Preservation Fund** for additional explanation.

- Commit to the Pavement Preservation Fund for a period of 4 years (2013-2016)
  - i. At which time, measure and assess the impact to the Overall Condition Index of City pavement and determine necessary modifications to Pavement Preservation Fund.
  - ii. In the event that annual revenues exceed annual expenditures during the four year period, consider additional allocation to Pavement Preservation Fund.

## ***Budget Highlights***

The 2013 Budget recognizes the economic realities of our times and the necessity to continue to operate within our financial means. At the same time, and for the first time in the City's budget history, the 2013 Budget establishes a Pavement Preservation Fund when combined with pavement preservation expenditures in the General Fund will result in \$2,054,141 for this program.

***New Pavement Preservation Fund:*** The 2012 Budget established Pavement Preservation Fund #311 with projected expenditures of \$1,198,284 for 2013. In addition, \$855,857 will be expended from the General Fund for Pavement Preservation resulting in a total 1.24% increase in General Fund Recurring Expenditures. Additional transfers to Pavement Preservation include \$282,000 from the Street Fund, \$616,284 from the Civic Facilities Replacement Fund, \$150,000 from Capital Projects Fund and \$150,000 from Special Capital Projects Fund. Most of these transfers are projected to be sustainable for the foreseeable future. However, the transfer from the Civic Facilities Replacement fund is not sustainable and can occur for four years (including 2013) until the balance of \$2,403,848 is depleted. Pavement preservation is seen as a much more immediate and critical need than the potential future replacement of CenterPlace or the Valley Police Precinct.

***Budget Reductions:*** Before Pavement Preservation is factored in, the 2013 General Fund budget actually **decreased** by 1.22% as compared to 2012. In fact, the 2013 Proposed Budget prior to adding Pavement Preservation was \$589,409 or 1.7% less than the **2011** Budget. This deserves recognition. We are spending less and maintaining similar service levels (including no reduction in law enforcement) during a period of about 2.1% inflation.

***Staffing Levels:*** Staffing levels were reduced by 8.5 full-time and 2 temporary unfilled positions in 2011. For 2012 we remained at this same reduced level,

operating a city of 90,550<sup>1</sup> residents with a staff of 87.25 employees. In 2013 we will reduce an additional 2.0 employees. Even taking into consideration that we contract for police services and are served by Fire Districts and a Library District, we are operating substantially below the normal employee count for a major city at a substantially reduced cost. Spokane Valley personnel costs are approximately 20% of the total General Fund Budget. Comparable cities and counties typically fund personnel costs at about 60% to 70% of their General Fund Budget (after adjusting for police, fire and library personnel, which the City of Spokane Valley contracts). Spokane Valley staff levels are about 1 employee for every 1,059 citizens. Other cities compared range from 1 employee to every 163 citizens to 1 employee for every 491 citizens. While the survey is not scientific, the low comparable personnel costs coupled with the low employee per citizen ratio indicates the City of Spokane Valley is operating at a very low and effective staffing level.

***Moderate Growth in Current Operational Expenses:*** Investing in the essential core services identified by the Council and community creates baseline costs. Similar to the trend in most jurisdictions, costs and demands for service are growing while tax revenues are decreasing. Quality service delivery requires ongoing investment in basic capacity to provide efficient operations. Moderate as it may be, operational expenses cannot continue to increase during declining or flat revenue. The City can either subsidize operational expenses with reserves, or husband their reserves and make additional budget reductions.

***Public Safety Costs:*** In 2013, the Police, Court and Jail related services proposed budget is \$22,139,200 —**an amount equal to 202% of anticipated property tax collections (\$10,943,700) for the entire year.** Council has made a commitment not to reduce public safety service levels and associated costs in 2013.

### ***Challenges:***

***Pavement Preservation:*** Fully funding our Street Preservation needs must be balanced with other priorities therefore future revenue sources will be required. The City will update the Preservation Plan in 2013.

***Grants and Declining Matching Funds:*** City staff actively pursues funding commitments from other sources to help pay the cost of needed capital improvements—roads, bridges and parks—that benefit the community. The 2012 capital construction program totaled \$10,725,804 with \$7,828,118 (73%) coming from outside sources. The 2013 budget projects a total capital construction budget of \$7,957,725 with \$6,597,842 (83%) coming from outside sources.

---

<sup>1</sup> Washington State Department of Financial Management, April 1, 2012

When the City applies for state and federal grants, the City must provide its share (match) for these projects. In the past, Real Estate Excise Tax (REET) was used for most of the City match. However, during the last five years, this tax has declined from \$2.5 million to \$1 million, leaving a potential future shortage of local match depending on availability of Federal, State and Local grants. For now, the City has a small projected surplus of \$300,000 in REET Funding which will transfer to the Pavement Preservation Fund.

***Local Street Maintenance Combination of Funding:*** This fund derives its revenues from an allocation of the State Motor Fuel Tax distributed to cities and towns, and a 6% city utility tax on telephone usage estimated in 2013 at \$1,861,000 and \$2,900,000 respectively. There is also an anticipated \$1,961,271 Beginning Fund Balance that will carry over into 2013. Therefore, the combination of Fuel Tax and Telephone Utility Tax enables us to meet the ongoing need for these funds to pay for street maintenance activities like snow plowing, pothole repair, crack sealing, sweeping, weed control, street lighting, traffic signals and a variety of other repairs/improvements. In 2013, \$282,000 will transfer to Pavement Preservation for more substantial repaving projects.

## ***The Budget for 2013***

### **Balanced Budget Adopted:**

One of the most important tests of fiscal management is the ability of a municipal enterprise to maintain basic services during an economic downturn. The creation and maintenance of financial reserves since incorporation has served its intended purpose and provided the opportunity for Spokane Valley to sustain critical public services during the turbulent economic conditions that began in 2008. The 2013 budget reflects a continuation of service delivery capabilities during difficult and uncertain economic times.

**The 2013 budget is in balance.** Expenses have been balanced with known or reasonably predictable revenues. The budget is designed to maintain the healthy, positive fund balance at year end that provides for the city's cash flow needs without costly borrowing. In pursuit of fiscal responsibility, special attention was given to limiting the growth in new programs and financial commitments, while City revenue and expenditure patterns further fluctuate with the economy. This approach allows available resources to be put toward sustaining services that are consistent with the City Council's priorities for 2013 and beyond.

Since incorporation, this City has taken a conservative approach to adding new staff. Spokane Valley continues to have the lowest employee count of any Washington city with 50,000 or more in population. A 2011 Work Force Comparison chart is included in the budget document. By all comparisons, the City of Spokane Valley is a lean, productive City government.

## ***Future Concepts:***

The budget process is not static and Council, the citizens, and staff must remain vigilant to watch for economic trends that impact current forecasts. Even as we adopt a 2013 budget, we must keep in mind the future economic opportunities and threats that may impact our multi-year forecast. An example of potential impacts and adaptive future concepts are as follows:

- A commitment by Management to review all vacant positions prior to filling them. (In some cases, positions must be filled quickly due to workload.)
- Continue budget strategy to fund City programs and pavement preservation within the existing City of Spokane Valley tax structure. Develop a plan for fully sustainable pavement preservation funding.
- By all indications, the economic recovery of the U.S. and its collective states, counties and cities will be a slow and deliberate process. The City of Spokane Valley does not predict measureable growth in property tax or sales tax revenues through 2015 and we are budgeting with that in mind.
- Because it represents about 63% of the General Fund budget, achieving future budget reductions without impacting Law Enforcement and other Public Safety services will be challenging.

## ***Acknowledgments:***

I would like to acknowledge the City Council and staff for a long history of conservative spending and prudent fiscal planning. The City of Spokane Valley is in an enviable position in relation to other Federal, State and local entities. Although we must continue to budget and spend wisely, we do not have to make drastic cuts in critical services to balance our 2013 budget. By saving and conserving the taxpayers' money, and by adopting prudent long-term fiscal policies, the City can balance its budget for many years to come.

It has been challenging and rewarding to develop the 2013 budget, achieving substantial reductions and exceeding expectations for budget reductions and street preservation for 2013. The City Council has set a path to ensure the long-term financial sustainability of the City. The management staff and employees have worked together to develop Business Plans and 2013 budget recommendations that achieve Council's goal of sustainability.

Respectfully,

Mike Jackson  
City Manager

---

**TO:** City Manager and Members of the City Council

**FROM:** Mark Calhoun, Finance Director

**SUBJECT:** About the 2013 Budget and Budget Development Process

The budget includes the financial planning and legal authority to obligate public funds. Additionally, the budget provides significant policy direction by the City Council to the staff and community. As a result, the City Council, staff and public are involved in establishing the budget for the City of Spokane Valley.

The budget serves four functions:

**1. It is a Policy Document**

The budget functions as a policy document in that the decisions made within the budget will reflect the general principles or plans that guide the actions taken for the future. As a policy document, the budget makes specific attempts to link desired goals and policy direction to the actual day-to-day activities of the City staff.

**2. It is an Operational Guide**

The budget of the City reflects its operation. Activities of each City function and organization have been planned, debated, formalized, and described in the following sections. This process will help to maintain an understanding of the various operations of the City and how they relate to each other and to the attainment of the policy issues and goals of the City Council.

**3. It is a Link with the General Public**

The budget provides a unique opportunity to allow and encourage public review of City operations. The budget describes the activities of the City, the reason or cause for those activities, future implications, and the direct relationship to the citizenry.

**4. It is a Legally Required Financial Planning Tool**

The budget is a financial planning tool, which has been its most traditional use. In this light, preparing and adopting a budget is a State law requirement of all cities as stated in Title 35A of the Revised Code of Washington (RCW). The budget must be adopted as a balanced budget and must be in place prior to the beginning of the City's fiscal year. The budget is the legal authority to expend public moneys and controls those expenditures by limiting the amount of the appropriation at the fund level. The revenues of the City are estimated, along with available cash carry-forward, to indicate funds available. The budget takes into account unforeseen contingencies and provides for the need for periodic adjustments.

## **2013 BUDGET DEVELOPMENT PROCESS**

Historically the City has utilized a budgeting approach that assumed for most functions of government that the current year's budget was indicative of the base required for the following year. However, with the downturn in the economy and resultant reduction in revenues (most notably the decline in sales taxes), the 2011 through 2013 Budget development processes were amended to consciously review service levels in each department and determine the appropriate level of funding that meets Council goals relative to available resources.

The 2013 Budget development process began at the February 7, 2012 Council workshop where among other topics, Council and Staff discussed the budget in general terms. In mid-April 2012 the Finance Department notified City Departments that their 2013 revenue and expenditure estimates were due by May 16. Through the balance of May and early June, the City Manager's office and Finance Department worked to prepare budget worksheets that were communicated to the City Council at a Budget workshop held June 12, 2012. Following the workshop, the Finance Department continued work on the budget including refinements of revenue and expenditure estimates and through July and early August, the Finance Department and City Manager reviewed updated budget projections.

By the time the 2013 Budget is scheduled to be adopted on October 30, 2012, the Council will have had an opportunity to discuss it on nine separate occasions, including three public hearings to gather input from citizens:

June 12	Council Budget Retreat
August 14	Admin report: Estimated 2013 revenues and expenditures
August 28	<u>Public hearing #1</u> on 2013 revenues and expenditures
September 11	City Manager's presentation of preliminary 2013 Budget
September 18	Follow-up discussion on City Manager presentation
September 25	<u>Public hearing #2</u> on 2013 Budget
October 9	<u>Public hearing #3</u> on 2013 Budget
October 9	First reading on ordinance adopting the 2013 Budget
October 30	Second reading on ordinance adopting the 2013 Budget

Once adopted, the final operating budget is published, distributed, and made available to the public.

After the budget is adopted, the City enters a budget implementation and monitoring stage. Throughout the year, expenditures are monitored by the Finance Department and department directors to ensure that actual expenditures are in compliance with the approved budget. The Finance Department provides the City Manager and City Council with monthly reports to keep them abreast of the City's financial condition and individual department compliance with approved appropriation levels. Any budget amendments made during the year are adopted by City Council ordinance.

The City Manager is authorized to transfer budgeted amounts within a fund; however, any revisions that alter the total expenditures of a fund, or that affect the number of authorized employee positions, salary ranges or other conditions of employment must be approved by the City Council.

When the City Council determines that it is in the best interest of the City to increase or decrease the appropriation for a particular fund, it may do so by ordinance adopted by Council after holding one public hearing.

## **BUDGET PRINCIPLES**

- Department directors have primary responsibility for formulating budget proposals in line with City Council and City Manager priority direction, and for implementing them once they are approved.
- The Finance Department is responsible for coordinating the overall preparation and administration of the City's budget. This function is fulfilled in compliance with applicable State of Washington statutes governing local government budgeting practices.
- The Finance Department assists department staff in identifying budget problems, formulating solutions and alternatives, and implementing any necessary corrective actions.
- Interfund charges will be based on recovery of costs associated with providing those services.
- Budget amendments requiring City Council approval will occur through the ordinance process at the fund level prior to fiscal year end.
- The City's budget presentation will be directed at displaying the City's services plan in a Council/constituent friendly format.
- Short term debt shall not exceed 10% of revenues. No long term debt will be incurred without identification of a revenue source to repay the debt. Long term debt will be incurred for capital purposes only.
- The City will strive to maintain equipment replacement funds in an amount necessary to replace the equipment at the end of its useful life. Life cycle assumptions and required contributions will be reviewed annually as part of the budget process. New operations in difficult economic times may make it difficult to fund this principle in some years.
- The City will pursue an ending general fund balance at a level of no less than 50% of recurring expenditures. This figure is based upon an evaluation of both cash flow and operating needs.

## **BASIS OF ACCOUNTING AND BUDGETING**

### **Accounting**

Accounting records for the City are maintained in accordance with methods prescribed by the State Auditor under the authority of the Revised Code of Washington (RCW), Chapter 43.09.20, and in compliance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board.

### **Basis of Presentation - Fund Accounting**

The accounts of the City of Spokane Valley are organized on the basis of funds, each of which is considered a separate accounting entity. Each fund is accounted for with a separate set of double-entry accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. The City's resources are allocated to and accounted for in individual funds depending on their intended purpose. The following are the fund types used by the City of Spokane Valley:

### Governmental Fund Types

Governmental funds are used to account for activities typically associated with state and local government operations. All governmental fund types are accounted for on a spending or "financial flows" measurement focus, which means that typically only current assets and current liabilities are included on related balance sheets. The operating statements of governmental funds measure changes in financial position, rather than net income. They present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. There are four governmental fund types used by the City of Spokane Valley:

#### 1. General Fund

This fund is the primary fund of the City of Spokane Valley. It accounts for all financial resources except those required or elected to be accounted for in another fund.

#### 2. Special Revenue Funds

These funds account for revenues that are legally restricted or designated to finance particular activities of the City of Spokane Valley. Special Revenue funds include:

- #101 - Street Fund
- #103 - Paths & Trails Fund
- #105 - Hotel / Motel Tax Fund
- #120 - CenterPlace Operating Reserve Fund
- #121 - Service Level Stabilization Reserve Fund
- #122 - Winter Weather Reserve Fund
- #123 - Civic Facilities Replacement Fund

#### 3. Debt Service Funds

These funds account for financial resources which are designated for the retirement of debt. Debt Service Funds are comprised of the #204 - Debt Service LTGO 03 Fund.

#### 4. Capital Project Funds

These funds account for financial resources, which are designated for the acquisition or construction of general government capital projects. Capital Project Funds include:

- #301 - Capital Project Fund
- #302 - Special Capital Projects Fund
- #303 - Streets Capital Projects Fund
- #304 - Mirabeau Point Project Fund
- #307 - Capital Grants Fund
- #309 - Parks Capital Projects Fund
- #310 - Civic Facilities Capital Projects Fund
- #311 - Pavement Preservation Fund
- #312 - Capital Reserve Fund

### Proprietary Fund Types

A fifth type of fund classification are the Proprietary Funds that are used to account for activities similar to those found in the private sector where the intent of the governing body is to finance the full cost of providing services based on the commercial model which uses a flow of economic resources approach. Under this approach, the operating statements for the proprietary funds focus on a measurement of net income (revenues and expenses) and both current and non-current assets and liabilities are reported on related balance sheets. Their reported fund equity (total net assets) is segregated into restricted, unrestricted and invested in capital assets classifications. As described below, there are two generic fund types in this category:

1. Enterprise Funds

These funds account for operations that provide goods or services to the general public and are supported primarily by user charges. Included in this type of fund is:

- #402 – Stormwater Management Fund
- #403 – Aquifer Protection Area Fund

2. Internal Service Funds

These funds account for operations that provide goods or services to other departments or funds of the City. Included in this type of fund is:

- #501 - Equipment Rental and Replacement Fund
- #502 - Risk Management Fund

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized, recorded in the accounting system and ultimately reported in the financial statements.

- Modified Accrual Basis of Accounting is used for all governmental funds. Modified accrual recognizes revenues when they become both measurable and available to finance expenditures of the current period.
- Accrual Basis of Accounting is used for enterprise and internal service funds. Under this system revenues and expenses are recognized in the period incurred rather than when cash is either received or disbursed.

Budgets and Budgetary Accounting

Annual appropriation budgets are adopted for all funds with Governmental Funds utilizing a modified cash basis of accounting for budget purposes, and Proprietary Funds utilizing a working capital approach.

Budgets are adopted at the fund level that constitutes the legal authority for expenditures and annual appropriations for all funds lapse at the end of the fiscal period.

**EXPLANATION OF MAJOR REVENUE SOURCES**

General Fund

• Property Tax

Property taxes play an essential role in the finances of the municipal budget. State law limits the City to a \$3.60 levy per \$1,000 assessed valuation, deducting from there the levy of \$1.50 by the Spokane County Fire Districts #1 and #8, along with deducting \$0.50 for the Library District, which leaves the City with the authority to levy up to \$1.60 for its own purposes. The levy amount must be established by ordinance by November 30th prior to the levy year.

• Retail Sales and Use Tax

The sales tax rate for retail sales transacted within the boundaries of the City of Spokane Valley is 8.7%. The tax that is paid by a purchaser at the point of sale is remitted by the vendor to the Washington Department of Revenue who then remits the taxes back to the various agencies that have imposed the tax. The allocation of the 8.7% tax rate to the agencies is as follows:

State of Washington	6.50%	
City of Spokane Valley	0.85%	
Spokane County	0.15%	
Spokane Public Facilities District	0.10% *	
Criminal Justice	0.10% *	
Public Safety	0.10% *	2.20% local tax
Juvenile Jail	0.10% *	
Mental Health	0.10% *	
Law Enforcement Communications	0.10% *	
Spokane Transit Authority	0.60% *	
	<u>8.70%</u>	

*\* Indicates voter approved sales taxes.*

- **Criminal Justice Sales Tax**

Local Sales Tax for Criminal Justice funding is to be used solely for criminal justice purposes, such as the City's law enforcement contract. This tax is authorized at 1/10 of 1% of retail sales transacted in the County. Of the total amount collected, the State distributes 10% of the receipts to Spokane County, with the remainder allocated on a per capita basis to the County and cities within the County.

- **Public Safety Sales Tax**

Beginning in 2005, an additional .1% voter approved increase in sales tax was devoted to public safety purposes. This .1% was approved by the voters again in August 2009. Of the total amount collected, the State distributes 60% of the receipts to Spokane County, with the remainder allocated on a per capita basis to the cities within the County.

- **Gambling Tax**

Gambling tax revenues must be spent primarily on law enforcement purposes pertaining to gambling. Funds remaining after necessary expenditures for such enforcement purposes may be used for any general government purpose.

Gambling taxes are to be paid quarterly to the City, no later than the last day of January, April, July and October. The City imposes a tax on the following forms of gambling at the following rates: Bingo (5% gross, less prizes); Raffles (5% gross, less prizes); Games (2% gross, less prizes); Card playing (10% gross).

- **Leasehold Excise Tax**

Taxes on property owned by state or local governments and leased to private parties (City's share).

- **Franchise Fees**

Cable TV is the only franchise fee levied in the City at a rate of 5% of gross revenues. This is a fee levied on private utilities for the right to use city streets, alleys, and other public properties.

- **State-Shared Revenues**

State-shared revenues are received from liquor sales, and motor vehicle excise taxes. These taxes are collected by the State of Washington and shared with local governments based on population. State-shared revenues are distributed on either a monthly or quarterly basis, although not all quarterly revenues are distributed in the same month of the quarter. The 2012 population figure used in the 2013 Budget is 90,550 as reported by the Office of Financial Management for Washington State on April 1, 2012. This figure is important when determining distribution of State shared revenues on a per capita basis.

- Service Revenues

Fees are charged for services rendered by the City of Spokane Valley. Most of the fees in the General Fund are construction inspections and permits related to services such as planning, zoning and building.

- Fines and Forfeitures

Fines and penalties are collected as a result of Municipal Court rulings and other miscellaneous rule infractions. All court fines and penalties are shared with the State, with the City, on average, retaining less than 50% of the amount collected.

- Recreation Program Fees

The Parks and Recreation Department charges fees for selected recreation programs. These fees offset direct costs related to providing the program.

- CenterPlace Fees

The Parks and Recreation Department charges fees for use of CenterPlace. Uses include regional meetings, weddings, receptions and banquets. Rental rooms include classrooms, the great room and dining rooms.

- Investment Interest

The City earns investment interest on sales tax money held by the State of Washington prior to the distribution of the taxes to the City, as well as on City initiated investments.

### **Street Fund**

- Motor Vehicle Fuel Excise Tax (gas tax)

The State of Washington collects a \$.3750 per gallon motor vehicle fuel tax at the pump and remits \$.0296 of the tax back to cities on a per capita basis. For 2013 the Municipal Research and Services Center estimates the distribution back to cities will be \$20.64 per person. Based upon a City of Spokane Valley population of 90,550 (per the Washington State Office of Financial Management on April 1, 2012) we anticipate the City will collect \$1,868,900 in 2013. RCW 47.30.050 specifies that .42% of this tax must be expended for paths and trails activities and based upon the 2013 revenue estimate this computes to \$7,800. The balance or \$1,861,100 will be credited to Fund #101 for Street maintenance and operations.

- Telephone Utility Tax

The City of Spokane Valley levied a 6% telephone utility tax via Ordinance #08-014 with collections beginning in 2009. Telephone companies providing this service pay the tax to the City monthly. Telephone tax has been estimated at \$2.9 million for 2013.

### **Paths & Trails Fund**

Cities are required to spend .42% of the motor vehicle fuel tax receipts on paths and trails. Because the amount collected in any given year is relatively small, it is typical to accumulate State distributions for several years until adequate dollars are available for a project.

### **Hotel / Motel Tax Fund**

The City imposes a 2% tax under RCW 67.28.180 on all charges made for the furnishing of lodging at hotels, motels, and similar establishments (including bed and breakfasts and RV parks) for a continuous period of less than one month. The tax is taken as a credit against the 6.5 percent state sales tax, so that the total tax that a patron pays in retail sales tax and hotel/motel tax combined is equal to the retail sales tax in the jurisdiction. The revenues generated by this tax may be used solely for paying for tourism promotion and for

the acquisition and/or operation of tourism-related facilities. This tax is estimated to generate \$460,000 in 2013.

**Debt Service Fund – LTGO 03:**

The City issued \$9,430,000 in limited tax general obligation bonds (LTGO) in 2003. Of this total:

- \$7,000,000 of the proceeds was used to finance the construction of CenterPlace at Mirabeau Point. These bonds will be paid off in annual installments over the 30-year period ending December 1, 2033. Annual debt service payments on these bonds are provided by the Spokane Public Facilities District.
- \$2,430,000 of the proceeds was used to finance Road and Street Improvements near CenterPlace. These bonds will be paid off in annual installments over the 20-year period ending December 1, 2023. Annual debt service payments on these bonds are provided by equal distributions from the 1<sup>st</sup> and 2<sup>nd</sup> quarter percent real estate excise tax.

**Capital Projects Fund**

Under Washington State Law, RCW 82.46.010, the City is allowed to impose an excise tax on each sale of real property at the rate of one-quarter of one percent of the selling price. The revenue generated is used for financing capital projects as specified in the capital facilities plan under the Growth Management Act.

**Special Capital Projects Fund**

Under Washington State Law, RCW 82.46.010, the City is allowed to impose an additional excise tax on each sale of real property at the rate of one-quarter of one percent of the selling price. The revenue generated is used for financing public works capital projects as specified in the capital facilities plan under the Growth Management Act.

**Stormwater Management Fund:**

A stormwater fee is imposed upon every developed parcel within the City, which is an annual charge of \$21 for each single family unit and \$21 per 3,160 square feet of impervious surface for all other properties. These charges are uniform for the same class of customers and service facilities. These fees are estimated to generate \$1,800,000 in 2013.

**Aquifer Protection Area Fund:**

These are voter approved fees to assist the City in protecting the aquifer. The City expects to receive \$500,000 in 2013.

**Interfund Transfers**

Many funds receive a portion of their revenues from other funds in the form of an interfund transfer. These transfers typically represent payments for either services rendered by one fund for another or a concentration of revenues for a specific project or purpose. The following interfund transfers are planned for 2013:

		Out:							
		001	101	105	123	301	302	402	Total In

									0

#001-General Fund is budgeted to transfer out \$8,210,607 including:

- \$50,000 towards Fund #309-Park Capital Projects Fund for park related projects.
- \$7,826,207 to Fund #312-Capital Reserve Fund that will be used to accumulate resources for projects such as:
  - the replacement of a portion of Sullivan Street Bridge,
  - the acquisition or construction of a City Hall building,
  - development of a joint library and City park site.
- \$15,400 to Fund #501-Equipment Rental and Replacement Fund for the future replacement of vehicles.
- \$319,000 towards the #502-Risk Management Fund for the 2012 property and liability insurance premium.

#101-Street Fund is budgeted to transfer out \$482,477 including:

- \$39,700 to Fund #001-General Fund to cover administrative costs.
- \$282,000 to Fund #311-Pavement Preservation Fund for pavement preservation projects.
- \$160,177 to Fund #501-Equipment Rental and Replacement Fund for the future replacement of vehicles including snow plows.

#105-Hotel / Motel Tax Fund is budgeted to transfer \$30,000 to Fund #001-General Fund for the purpose of financing advertising at CenterPlace.

#123-Civic Facilities Replacement Fund is budgeted to transfer \$616,284 to Fund #311-Pavement Preservation Fund for pavement preservation projects.

#301-Capital Projects Fund is budgeted to transfer out \$985,355 including:

- \$92,951 to Fund #204-Debt Service Fund to pay a portion of the annual payment on the 2003 LTGO bonds.
- \$742,404 to Fund #303-Street Capital Projects Fund that will be applied towards grant matches for street construction projects.
- \$150,000 to Fund #311-Pavement Preservation Fund for pavement preservation projects.

#302-Special Capital Projects Fund is budgeted to transfer out \$860,431 including:

- \$92,952 to Fund #204-Debt Service Fund to pay a portion of the annual payment on the 2003 LTGO bonds.
- \$617,479 to Fund #303-Street Capital Projects Fund that will be applied towards grant matches for street construction projects.
- \$150,000 to Fund #311-Pavement Preservation Fund for pavement preservation projects.

#402-Stormwater Fund is budgeted to transfer out \$14,967 including:

- \$13,400 to Fund #001-General Fund to cover administrative costs.
- \$1,567 to Fund #501-Equipment Rental and Replacement Fund for the future replacement of vehicles.

## **SIGNIFICANT ASSUMPTIONS IN THE 2013 BUDGET**

### **Budget Summary for All Funds**

- Based upon funding levels anticipated in the 2013 budget, City staff will strive to maintain adequate levels of service.
- Appropriations for all City Funds will total \$63.6 million including \$11.0 million in capital expenditures.
- Budgets will be adopted across 23 separate funds.
- The full-time equivalent (FTE) employee count will be reduced by 2.0 from the 2012 count of 87.25 to 85.25 employees.
- Fund #311, previously titled “Street Capital Improvements 2011+” is renamed “Pavement Preservation” to more accurately reflect its function.
- The budget will include a new Fund #312 titled “Capital Reserve Fund” that will be used to accumulate resources for projects such as:
  - the replacement of a portion of Sullivan Street Bridge,
  - the acquisition or construction of a City Hall building,
  - development of a joint library and City park site.
- Positions and salary ranges are based on the City’s compensation and classification plan.
- Employee benefit amounts are based on employee benefit plans.
- Contract costs for public safety, park maintenance, aquatics and street maintenance are based on estimates by City staff.
- State required retirements costs (PERS) are included in the budget.
- The City is setting money aside in Fund #501-Equipment Rental and Replacement for the eventual replacement of its vehicles, including snow plows.

### **2013 General Fund Revenues**

- Total recurring 2013 revenues are estimated at \$35,124,700 as compared to \$34,908,800 in 2012.
- The two largest sources of revenue continue to be Sales Tax and Property Tax which are collectively estimated to account for 80% of 2013 General Fund revenues.
- General sales tax (excluding criminal justice and public safety sales taxes) are reflective of 2012 receipts to date and are currently estimated at \$15.1 million which reflects an increase of \$890,000.
- The Property Tax levy will not include the 1% increase allowed by Initiative #747 which was approved by the voters in November 2001 through their approval of Initiative #747 and the subsequent action by the State Legislature in November 2007.
  - The 2013 levy is estimated at \$10,943,713.
  - The levy assumes we start with the 2012 levy of \$10,818,713, add the 0% increase of \$0, and finally add taxes related to new construction which we estimate to be \$125,000.
- Franchise fees and business registrations are primarily based on projected receipts in 2012.

- Following the passage of Initiative #1183 by the electorate in November 2011, and subsequent revisions to revenue sharing by the Washington State Legislature in their 2012 legislative session, the City will continue to receive Liquor Board profits and liquor excise taxes but at reduced levels from past years. Distributions of Liquor Board profits and liquor excise tax are based upon per capita distribution figures reported by the Municipal Research and Services Center, and in 2013 we estimate the combined total will be \$888,300.
- Fines and forfeitures are estimated by Spokane Valley and based on historical collections.
- Building permit and land use fees are estimated by Spokane Valley and based on historic collections.

### **2013 General Fund Expenditures**

- The total 2013 recurring expenditure budget computed prior to adding a new pavement preservation component is \$34,235,677, representing a \$424,723 or 1.22% reduction from the 2012 appropriation of \$34,660,400.
- To the \$34,235,677 is added \$855,857 for total recurring expenditures of \$35,091,534 for an increase of \$431,134 or 1.24% compared to the previous year.
- The addition of \$855,857 reflects a commitment to pavement preservation that coupled with \$1,198,384 in transfers to Fund #311-Pavement Preservation, will result in a total 2013 commitment to pavement preservation of \$2,054,141.
- The commitment of \$2,054,141 is equivalent to 6% of 2013 General Fund recurring expenditures computed prior to adding the pavement preservation element ( $\$34,235,677 \times 6\% = \$2,054,141$ ).
- The \$1,198,284 in transfers to Fund #311-Pavement Preservation are comprised of:
  - \$282,000 from Street Fund #101
  - \$616,284 from Civic Facilities Replacement Fund #123
  - \$150,000 from Capital Projects Fund #301
  - \$150,000 from Special Capital Projects Fund #302
- The General Fund recurring expenditure history is as follows:
  - 2011    \$34,825,086
  - 2012    \$34,660,400 (\$164,686 or .4% less than 2011)
  - 2013    \$34,235,666 (\$424,723 or 1.22% less than 2012)
  - The 2013 budget of \$34,235,677 is \$589,409 or 1.7% less than 2011.
- 2013 Nonrecurring expenditures total \$7,876,207 and include:
  - A \$50,000 transfer to Fund #309–Parks Capital Projects Fund.
  - A \$7,826,207 transfer to Fund #312–Capital Reserve Fund

### **General Fund Revenues Over (Under) Expenditures and Fund Balance**

- 2013 recurring revenues are anticipated to exceed recurring revenues by \$33,166.
- Total 2013 expenditures are anticipated to exceed total revenues by \$7,843,041.
  - This is entirely due to the one-time transfer of \$7.8 million in General Fund reserves to other funds for future construction related projects and is not a result of ongoing operating costs overwhelming revenues.
- The General Fund fund balance is anticipated to be \$17,787,567 at the end of 2013 which is 50.69% of total recurring expenditures of \$35,091,534.

### **Highlights of Other Funds**

#### **Revenues**

- Motor vehicle fuel tax (MVFT) revenue that is collected by the State and remitted to the City is estimated to be \$1,868,900 according to per capita estimates provided by the Municipal Research and Services Center. Of this amount, \$1,861,100 will be credited to the Street O&M Fund and .42% or \$7,800 to the Paths and Trails Fund.

- Telephone taxes that are remitted to the City and support Street Fund operations and maintenance are anticipated at \$2,900,000.
- Real estate excise tax (REET) revenue is computed by the City and is primarily used to match grant funded street projects as well as pay a portion of the annual payment on the 2003 general obligation bonds. In 2013 we estimate these revenues to be \$500,000 per each 1/4% for a total of \$1,000,000.
- Hotel/Motel tax revenues are computed by the City and are dedicated to the promotion of visitors and tourism. In 2013 we estimate the 6% tax will generate \$460,000.
- The Stormwater Management Fee is based on an equivalent residential unit (ERU) that is equal to 3,160 square feet of impervious surface that is billed at a rate of \$21 per single family residence and \$21 per ERU for commercial properties (an ERU for a commercial property is computed as total square feet of impervious surface divided by 3,160). In 2013 we estimate this will fee will generate \$1,800,000.
- The Aquifer Protection Area Fund is expected to generate \$500,000 in fees that are collected on the City's behalf by Spokane County and remitted in two installments during the year.

#### Expenditures

- Fund #101-Street Fund includes an appropriation of \$160,177 that represents a transfer to the Equipment Rental and Replacement Fund (#501) for the future replacement of vehicles including snow plows.
- Fund #301-Capital Projects Fund includes an appropriation of \$150,000 that represents a transfer to Fund #311-Pavement Preservation Fund for pavement preservation projects.
- Fund #302-Special Capital Projects Fund includes appropriation of \$150,000 that represents a transfer to Fund #311- Pavement Preservation Fund for pavement preservation projects.
- Fund #303 – Street Capital Projects Fund includes an appropriation of \$7,957,725 for a variety of street construction projects
- Fund #402-Stormwater Fund includes \$417,000 for capital expenditures including:
  - a \$267,000 for the Sullivan Bridge Drain Retrofit project, which will be in part financed through a \$200,000 Department of Ecology grant.
  - \$150,000 for assorted stormwater projects.
- Fund #403-Aquifer Protection Area Fund includes \$500,000 for capital expenditures including:
  - \$200,000 for a 14th Avenue-Custer to Carnahan project.
  - \$210,000 for a Bettman-Dickey Storm drain project.
  - \$90,000 for assorted aquifer protection projects.
- Fund #501-Equipment Rental and Replacement Fund includes \$50,000 for vehicle replacements including:
  - \$50,000 to replace two 2003 S10 Chevy pickups with perhaps two smaller SUVs. An SUV type vehicle is preferred because gear can be more safely stored in the back and not subjected to weather conditions. The reason for the replacement is the two pickups are becoming less reliable and costly to maintain including collectively nearly \$5,000 in repairs in 2012 alone.
  - In each case, money has been set aside over the years with the intended purpose of replacing or acquiring vehicles.

### 011 - Council

This department accounts for the cost of providing effective elected representation of the citizenry in the governing body. The Council makes policy decisions for the City and is accountable to Spokane Valley citizens by making decisions regarding how resources are allocated, the appropriate levels of service, and establishing goals and policies for the organization.

#### Accomplishments for 2012

- Continued monitoring of significant wastewater issues  
Monitor status of Spokane County Wastewater Permit. Staff reviewing County Flood Plain Study for potential discharge to Saltese Flats.
- Solid Waste - to include identifying the issue & research alternatives of joining the consortium or handling it ourselves and examining the consequences of each alternative.  
Attended intergovernmental workshops and discussions regarding solid waste. City Manager is on the Joint Committee with other jurisdictions to develop an RFP to determine options for Waste-to-Energy-Plant, long haul, and transfer station. Also explored options for solid waste collection.
- Review and Evaluate Development Regulations and compare with surrounding Cities.  
Schedule council review and code update of sign and landscape code, zoning use matrix, boundary line adjustment process and building permit and application timeframes.
- Develop a Shoreline Master Program to provide appropriate regulatory protection for waters of State-wide significance as required by state code.  
Shoreline Inventory, goals and policies drafted and approved by Planning Commission and City Council. DOE Grant approved to assist in development of plan.
- Pursue a legislative capital budget request.  
Work with Council to develop legislative agenda and capital requests for Park Road Pool Property and Sullivan Bridge. Pursued legislative request through legislative advisor. Unsuccessful in 2012.
- Create an economic development plan including options for City Hall.  
Worked with Community Development to initiate an economic development plan. Met with local partners and economic development agencies. Developed Plan overview and inventoried partners. Plan pending input from Ad Hoc Committee. Changes to development regulations, stormwater swales and beautification and traffic infrastructure all economic development related.

#### Goals for 2013

- Continue monitoring wastewater issues, including governance of wastewater facilities, and pursuit of the most efficient and economical methods to ensure the continuation of wastewater discharge licenses.
- Pursue the topic of Solid Waste to include identifying the issue and obtaining alternatives of joining the consortium or handling it ourselves and the consequences of each alternative.
- Develop a Shoreline Master Program to appropriate regulatory protection for waters of statewide significance as required by state statute.
- Pursue a legislative capital budget request for possible financial assistance in the restoration of the Sullivan Bridge; purchase of a Transfer Station; and the assistance with creating the Appleway Trail Project.
- Create an Economic Development Plan including review and evaluation of Spokane Valley's development regulations and how they compare with other jurisdictions; and keeping options open for an alternative city hall.

**016 - Public Safety**

The Public Safety department budget provides funds for the protection of persons and property in the city. The City contracts with Spokane County for law enforcement, district court, prosecutor services, public defender services, probation services, jail and animal control services. See following page for detail information on each budgeted section.

**Judicial System** - The Spokane County District Court is contracted to provide municipal court services. The contract provides for the services of judge and court commissioner with related support staff. Budgeted amount also includes jury management fees.

Budgeted contract amount: \$ 2,090,326

**Law Enforcement** - The Spokane County Sheriff's Office is responsible for maintaining law and order and providing police services to the community under the direction of the Police Chief. The office provides for the preservation of life, protection of property, and reduction of crime.

Budgeted contract amount: \$ 17,220,568

**Jail System** - Spokane County provides jail and probation services for persons sentenced by any City of Spokane Valley Municipal Court Judge for violating laws of the city or state.

Budgeted contract amount: \$ 1,301,540

**Animal Control** - Spokane County will provide animal control services to include licensing, care and treatment of lost or stray animals, and response to potentially dangerous animal confrontations.

Budgeted contract amount: \$ 268,351

**Fines & Forfeitures State Remittance**

Budgeted contract amount: \$ 1,050,264

**Communications**

Budgeted contract amount: \$ 208,151

**Interfund Transfers** - Transfer to Fund #123 to cover future building improvements or the eventual replacement of the precinct building

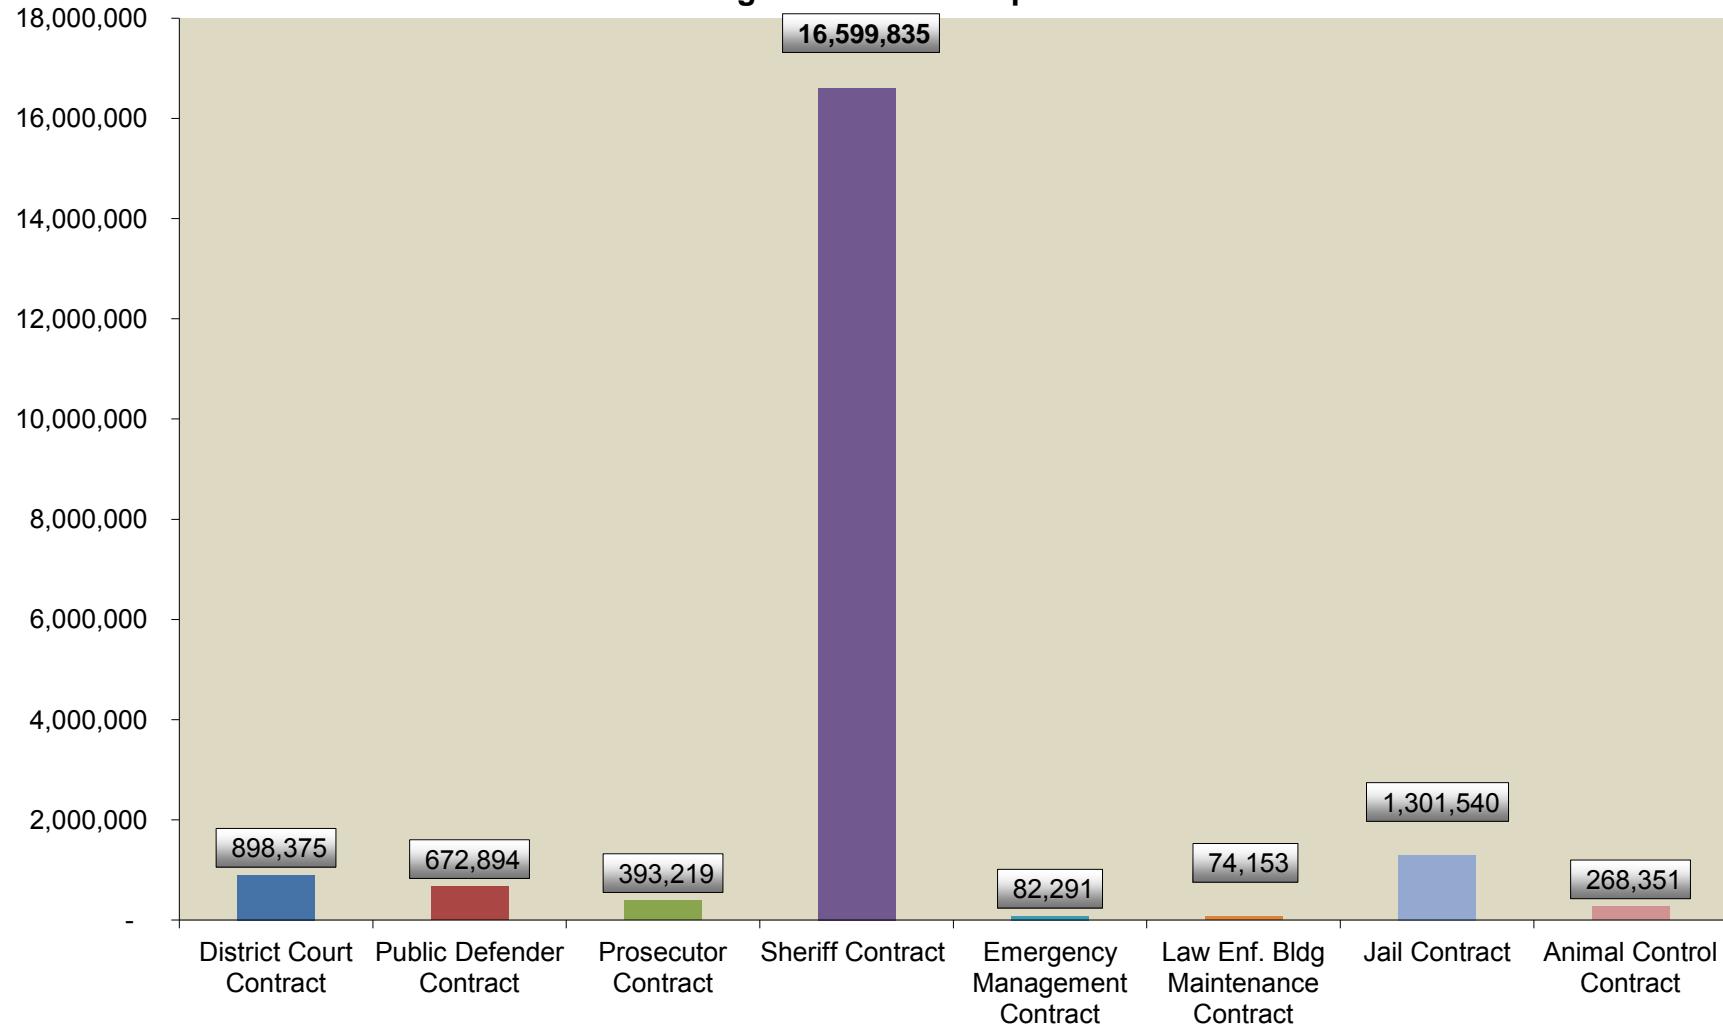

\$ -

Total \$ 22,139,200

Operations &amp; Administrative Services

2013 Budget

**018 - Operations & Administrative Services**

The Operations & Administrative Services Department is composed of three divisions, the Deputy City Manager Division, the Finance Division, and the Human Resources Division. As of 2007, the Legal Division costs are included in the Executive and Legislative Support Division.

**013 - Deputy City Manager Division**

The Deputy City Manager (DCM) supervises the Operations & Administrative Services Department, assists the City Manager in organizing and directing the other operations of the City, and assumes the duties of City Manager in his/her absence.

*Note: The Deputy City Manager position has been vacant since January 2010 but intended to be filled in the future.*

**Accomplishments for 2012**

- Evaluated animal control options and selected provider and facility to provide long-term service to the city.
- Worked on Solid Waste evaluation process to meet long-term needs of Spokane Valley
- Resolved law enforcement billing dispute.
- Identified alternatives to incarceration to pursue reducing future incarceration costs.
- Evaluated prosecution alternatives to meet the specific needs of the Spokane Valley municipality.
- Implemented public safety service contract amendments to ease administration and increase accuracy of associated costs.
- Initiated planning for ten-year anniversary celebration.
- Initiated branding and marketing plan for City including advertising in 4th quarter 2012.

**Goals for 2013**

- Evaluate Solid Waste options and select most effective course.
- Negotiate public safety contracts to incorporate performance measures, enhanced reporting, and customer service standards.
- Implement quarterly reporting to Council on public safety service contracts.
- Implement enhanced oversight standards for prosecution services.
- Complete contract and purchasing procedures.
- Implement and support planned programs and events in celebration of the ten year anniversary.
- Provide public information and marketing support to the City's economic development and tourism promotion efforts.
- Update Strategic Communications Plan.

Dept: 018	Finance Division	2013 Budget

#### 014 - Finance Division

The Finance Division provides financial management services for all City departments. Programs include accounting and reporting, payroll, accounts payable, purchasing, budgeting and financial planning, treasury, information technology and investments. The division is also responsible for generating and analyzing data related to the City's operations. The department prepares monthly Finance Activity Reports for review by the City Manager and City Council as well as the Annual Financial Report that is subject to an annual audit conducted by the Washington State Auditor's Office.

#### Accomplishments for 2012

- Implemented State Auditor recommendations.
- Improved financial statement process and accuracy
- Expanded the contents of the monthly Finance Department Activity Report to include an analysis of revenues, expenditures and changes in fund balance for every activity fund managed by the City.
- Completed the installation of the Paladin SmartGov permit tracking software and worked with the community Development department to monitor actual results against City expectations.
- Replaced 32 personal computers that reached the end of their life cycle and installed Microsoft Office 2010 on each of the new PCs.
- Researched, acquired and installed safes to store valuables including money at the finance Department, Permit Center and CenterPlace.
- Replaced 3 servers and updated/repurposed 1.

#### Goals for 2013

- Consider 2011 audit recommendations
- Work towards continued improvement and accuracy in the financial statement preparation process.
- Assist in negotiations to renew the City's lease of the City Hall building which expires March 31, 2013.
- Work with other city Departments, evaluate existing City purchasing system and consider implementing revisions to procurement including the use of purchase requisitions and purchase orders.
- Develop a system to audit sales tax receipts and ensure that sales taxes collected by businesses located in Spokane Valley are actually credited to the City as opposed to other municipalities.
- Replace another 30 personal computers that will reach the end of their life cycle and install Microsoft Office 2010 on replacements.
- Replace 3 servers that will reach the end of their life cycle.
- Update the remaining 5 to 6 servers to 2008.

Human Resources Division

2013 Budget

#### **016 - Human Resources Division**

Human Resources (HR) is administered through the Deputy City Manager (DCM). The HR operation provides services in compensation, benefits, training and organizational development, staffing, employee relations, and communications.

#### **Accomplishments for 2012**

- Met the AWC requirements to achieve the WellCity Award at the "Excellence" level.
- Conducted and/or assisted in recruitment and selection to fill executive and managerial vacancies
- Develop an automated employee performance management system for implementation in 2013
- Assisted in the support of the implementation of on-line employee services

#### **Goals for 2013**

- Implement a program to reduce the number of pre-employment physicals and associated costs
- Explore AWC Retro Program for possible reductions in workman's compensation rates
- Implement the provisions of the successor labor contract negotiated in 2012
- Continue to review and revise City Website to increase service and functionality
- Provide employee training in the areas of safe driving and budgeting

The Planning Division is responsible for providing professional policy guidance on land use issues to the City Council and Planning Commission. Planning staff participate at a regional level on issues such as annexations, growth targets, water quality, etc. It is also responsible for processing land use permits, reviewing environmentally sensitive areas, administering the State Environmental Protection Act and reviewing home occupation licenses.

**Accomplishments for 2012**

- Completed the Shoreline Master Program Goals and Policies.
- Continued to work with the region on UGA update process with hopeful adoption by end of 2012.
- Began work on Economic Development Program.
- Completed code amendments for Boundary Line Adjustments, Landscaping, Sign code, Use matrix animal shelters, multifamily standards adjacent to single family development.
- Provided training to the Planning Commission permit processing.
- Implementation of the Permit Tracking Software.
- Completed final legal steps on one abatement. Abatement action pending
- Staff attended customer service training and other in-house training to make processes consistent.
- Participated in the state-wide effort to reform the SEPA requirements.
- Revised process for completing Shoreline Master Program.
- Obtained a \$125,000 grant to assist with the development of the Shoreline Master Program.

**Goals for 2013**

- Complete the Shoreline Master Program.
- Continue to work on Economic Development issues for the City.
- Continue work on permit process and customer service improvement plan.
- Complete code compliance procedure manual update with legal office.
- 2013 Annual Comprehensive Plan amendments.

Community Development - Building Division

2013 Budget

### Building Division

The Building Division implements the Washington State Building Code. This Division is responsible for ensuring that buildings and structures comply with adopted building codes through technical plan review and inspection services.

The Permit Center receives applications and coordinates the review and processing of permits.

Code compliance staff enforce zoning and building regulations on a complaint-driven basis. ROW inspection program provides inspection services to assure the compliance with the RPCP and the durability and safety of work done in the public ROW.

### Accomplishments for 2012

- Implemented new Permit tracking system.
- Evaluated Express permitting process resulting in a slightly expanded program and updated information forms.
- Completed code amendment to extend timeframes for building permits and applications.
- Continued interlocal agreement to provide building plan review to Airway Heights.
- Implementation of the Roadmap for Enhanced Permitting.

### Goals for 2013

- Continue work on permit process and customer service improvement plan.
- Maintain partnering efforts with Spokane and Spokane County.
- Develop web-access for permit system.
- Continue work on department reports.

Parks & Recreation

2013 Budget

The Parks and Recreation Department is composed of five divisions, the Administration and Park Maintenance Division, Recreation, Aquatics, Senior Center, and the CenterPlace Division.

The overall goal of the department is to provide quality recreation programs and acquisition, renovation, development, operation, and maintenance of parks and recreation facilities.

#### **000 - Parks Administration & Maintenance Division**

The Administration Division provides direction and leadership for the Parks and Recreation Department in implementing the goals and objectives of the City Council and facilitates the general upkeep of parks and public areas of the City.

#### **Accomplishments for 2012**

- Replaced the playground equipment at Terrace View Park.
- Brought Greenacres Park online with opening ceremonies in June.
- Completed the renovation of turf & irrigation at south end of Mirabeau Point Park campus.
- Began the updating of the Parks and Recreation Master Plan.
- Completed construction of the City's West Entry Gateway Project.

#### **Goals for 2013**

- Complete Parks and Recreation Master Plan and begin to implement top priorities.
- Develop a Farmer's Market on city-owned property for the summer.
- Develop dog park master plan.
- Work on the finalization of a new Centennial Trail Agreement.

Parks & Recreation

2013 Budget

### 301 - Recreation Division

The Recreation Division coordinates and facilitates the delivery of recreation programs and service throughout the City and the City's Park system.

#### Accomplishments for 2012

- Established a monthly meeting group of Health & Wellness providers in Spokane Valley.
- Joint training for summer staff with City of Cheney, Liberty Lake and Pullman.
- Staff attended Year 1 at the National Recreation and Park Association Revenue Management School.
- Partnering with Health District, YMCA, Valleyfest, North Idaho Disc Golf Club and Spokane Valley Police & Fire for Greenacres Park Grand Opening.
- Created a new "doggy swim" event at Valley Mission Pool.

#### Goals for 2013

- Continue to provide Joint programming and training with Liberty Lake and other area agencies for better cost efficiencies.
- Establish a sponsorship policy to begin acquiring sponsors to help financially support recreation programs.
- Develop creative marketing strategies to increase recreation program attendance.

#### Budget Summary

### 302 - Aquatics Division

The City of Spokane Valley owns three pools: Park Road Pool, Terrace View Pool, and Valley Mission Pool. Services include open swim, swim lessons, swim team and facility rentals. In addition, the City leases a portion of Valley Mission Park to Splashdown Inc. for a water park.

The City currently is contracting with the YMCA for all aquatic activities within the City. The YMCA provides the lifeguards and maintains the pools during the season.

#### Accomplishments for 2012

- Continued to work with the "Make a Splash" campaign and Spokane Valley Partners to increase scholarship opportunities.
- Maintained full summer swim program.
- Continued to look for creative ways to utilize pool space during the off season. Continued with the Haunted Pool program and introduced a Doggy Swim Program.

#### Goals for 2013

- Maintain full summer swimming program.
- Develop creative revenue sources such as sales (sunscreen, goggles) and birthday packages.
- Increase swim lesson and team fees to be competitive in our area.

2013 Budget

### 304 - Senior Center Division

The City of Spokane Valley Parks and Recreation Department assumed operational control of the Valley Senior Center in 2003.

#### Accomplishments for 2012

- Hosted 4th Annual Resource Fair/Senior Empowerment Exposition. There were 39 vendors and approximately 250 attendees.
- Continued to utilize the Wellness Center and offered more services such as foot care and hearing testing.
- Worked with the Retirement Communities to involve their residents in activities at our Senior Center.
- Continued to assist the Board of Directors to be in compliance with the Washington State Department of Revenue regarding their non-profit status.
- Develop and publish a brochure for showcasing and marketing the Senior Center.

#### Goals for 2013

- Continue to have staff active in the Senior Circle at Spokane Valley Hospital program. The program offers monthly educational seminars with pertinent information to share with our seniors.
- Continue to offer a Resource Fair for seniors and their families.
- Extend exercise opportunities for seniors.

Dept: 076	Parks & Recreation	2013 Budget

### **305 - CenterPlace Division**

Construction of Mirabeau Point CenterPlace began in late 2003, and was completed mid-year 2005. The project represents the culmination of eight years of planning and fundraising by Mirabeau Point Inc. and the joint involvement of the City and Spokane County.

The approximately 54,000 square foot facility houses the City of Spokane Valley Senior Center, a great room (banquet facility), numerous meeting rooms, multi-purpose rooms, and a high tech lecture hall.

The facility combines with Mirabeau Meadows Parks and Mirabeau Springs to form a regional focal point for Northeast Washington and Northern Idaho.

#### **Accomplishments for 2012**

- Implemented changes to our forms and brochures to encourage diversity and decrease language barriers.
- Purchased acoustical panels for sound improvement to the Great Room.
- Increased participation with local agencies such as Visit Spokane to increase awareness of Spokane Valley to tourists.
- Renovated meeting space between rooms 211 and 212.

#### **Goal for 2013**

- Create an updated marketing plan for the next five years. This marketing plan will help create name recognition for CenterPlace and develop more corporate reservations.
- Continue to implement changes to our forms and brochures that would decrease language barriers and encourage diversity.
- Create an on-site storage facility in loading dock area that would alleviate storage challenges in CenterPlace and ensure our compliance with current regulations.

#### **Budget Summary**

	2011 Actual	2012 Budget	2013 Proposed Budget
<b>Personnel - FTE Equivalents</b>

**090 - General Government**

The General Government Department comprises activities that encompass services to multiple departments. Included in this department are the costs of City Hall and related utilities, management information services, insurance costs, miscellaneous city intergovernmental costs and capital equipment costs that benefit more than one department, and outside agency funding. Outside agencies provide needed public services on behalf of the City. The outside agencies must provide an annual report of how the money was spent.

Fund: 101

Street Fund

Spokane Valley

Dept: 042

2013 Budget

**101 - Street Fund**

The Street Operating Program is established to provide efficient and safe movement of both motorized and non-motorized vehicles, as well as pedestrians within the limits of the City, and coordinate convenient interconnect to the regional transportation system. Maintenance work includes snow and ice control, street pavement repairs, traffic signals and signs, landscaping and vegetation control and many other street maintenance and repair activities.

**Accomplishments for 2012**

- Updated the 2011 Street Master Plan.
- Optimized traffic signals on selected corridors.
- Applied for grants and work with various schools to install flashing beacons at crosswalks.
- Renewed Contracts with private contractors for street maintenance services.
- Outfitted the Maintenance Shop with Deicer tanks and a storage building for snow and ice operations.
- Completed several Pavement Preservation Projects.
- Continue to improve the efficiency of snow and ice operations.

**Goals for 2013**

- Optimize traffic signals on selected corridors .
- Apply for grants and work with various schools to install flashing beacons at crosswalks.
- Renew Contracts with private contractors for street maintenance services.
- Continue with the development and implementation of a winter operations program.

**Personnel - FTE Equivalents**

Fund: 103

Trails &amp; Paths Fund

Spokane Valley

2013 Budget

103 - Trails & Paths Fund

The State of Washington collects a \$.375 per gallon motor vehicle fuel tax at the pump and remits \$.0296 of the tax back to cities on a per capita basis. For 2013 the Municipal Research and Services Center estimates the distribution back to cities will be \$20.64 per person. Based upon a City of Spokane Valley population of 90,550 (per the Washington State Office of Financial Management on April 1, 2012) we anticipate the City will collect \$1,868,900 in 2013. RCW 47.030.050 specifies that .42% of this tax must be expended for the construction of paths and trails and based upon the 2013 revenue estimate. This computes to \$7,800. The balance or \$1,861,100 will be credited to Fund #101 for Street maintenance and operations.

Budget Summary

Hotel/Motel Fund

Spokane Valley

2013 Budget

105 - Hotel/Motel Fund

The Hotel/Motel Fund accounts for the receipt and expenditure of a special excise tax of two percent on the sale or charge made for the furnishing of lodging under RCW 82.08. These funds will be used solely for the purpose of paying all or any part of the cost of tourist promotion, acquisition or operation of tourism-related facilities, and marketing of special events and festivals designed to attract tourists.

Fund: 123	Civic Facility Replacement Fund	Spokane Valley
		2013 Budget

#### 123 - Civic Facility Replacement Fund

This fund was initially created to set aside money for the eventual replacement of CenterPlace and the police precinct building located on on east Sprague Avenue and the source of funds has in prior years been an annual transfer from the General Fund. Beginning in 2013 however, the General Fund will no longer set money aside in this fund for future building replacement and will instead commit the entire fund balance of Fund #123 to a pavement preservation program that will be operated through Fund #311 - Pavement Preservation. This is in recognition of the fact that addressing deteriorating streets in a timely manner is a much higher priority in the present than setting money aside for buildings that will need replaced in the distant future. Related to this, the conclusion is that to both set money aside for the replacement of CenterPlace now while at the same time repaying the 2003 LTGO bonds (see Fund #204 discussion) that were issued to finance the construction of CenterPlace is essentially asking the same generation of taxpayers/citizens to pay for the same structure twice - the initial construction and the replacement.

Based upon the projected fund balance at the end of 2012 of \$2,403,848, we estimate we can sustain the \$616,284 transfer to Fund #311 for pavement preservation for 4 years.

##### Budget Summary

	2011 Actual	2012 Budget	2013 Proposed Budget

**204 - Limited Tax General Obligation (LTGO) - Debt Service Fund**

This fund is used to account for the accumulation of resources for, and the payment of the 2003 nonvoted (LTGO) bonds issued by the City to construct the CenterPlace facility. These are limited tax general obligation bonds and as such, the full faith, credit and resources of the City have been irrevocably pledged for the timely payment of principal and interest, within constitutional and statutory limitations pertaining to non-voted general obligations.

The 2003 LTGO Bonds are 30-year bonds and are due to be paid-off in annual installments running through 2033. Annual debt service payments are financed through two sources:

- 1) Money received from the Spokane County Public Facilities District
- 2) A portion of the first and second 1/4% real estate excise tax (REET) that is transferred into this fund from City of Spokane Valley fund number 301 and 302.

**Budget Summary**

**301 Capital Projects Fund**

This fund is used to account for the collection and expenditures of the first one-quarter of one-percent real estate excise tax (REET 1) that is authorized through RCW 82.46. This quarter percent must be expended for purposes identified in a capital improvements plan. Revenues recorded in this fund are typically used as a matching fund for street related construction projects accounted for in Fund #303 - Street Capital Projects Fund, and to pay for a portion of the annual bond payment on the City's 2003 LTGO bonds that are accounted for in Fund #204 - LTGO Debt Service Fund. Beginning in 2013 revenues from this fund will be transferred to Fund #311 - Pavement Preservation Fund to provide partial financing towards the City's pavement preservation effort.

Street Capital Projects Fund

Spokane Valley

2013 Budget

**303 - Street Capital Projects Funds**

The Street Capital Projects Fund accounts for monies used to finance street construction and reconstruction projects adopted in the City's 6-year Transportation Improvement Plan (TIP). Revenues to finance the projects represent a combination of State and Federal Grants which typically cover upwards of 80% of projects costs with the City match portion coming from transfers from Capital Projects Fund #301, Special Capital Projects Fund #302 and sometimes Stormwater Management Fund #402.

Mirabeau Point Capital Project Fund

Spokane Valley

2013 Budget

**304 - Mirabeau Point Capital Project Fund**

Mirabeau Point is a multi-use regional project located at 2426 Discovery Place which is operated by the City. The bond sale proceeds were spent in 2003, 2004, and 2005. CenterPlace provides space for a Conference Center Wing, Senior Center Wing and a Great Room Wing.

The portion of CenterPlace used for the Conference Center Wing and Great Room Wing is developed as a "regional facility" as defined in RCW 36.100 and 35.57.020.

**310 - Civic Facilities Capital Projects Fund**

The Civic Building Capital Projects Fund was initially set-up to accumulate resources to ultimately acquire or construct a City Hall building. The initial sources of revenue to set-up the fund reserves were transfers from the General Fund during 2005 through 2007, and as recently as December 31, 2009 this fund had a fund balance of \$5,828,600. During 2010 and 2011 the City determined that street repairs and reconstruction represented a more immediate City need and opted to expend nearly \$2,000,000 of the fund balance for these projects. The projects themselves were part of a septic tank elimination program (STEP) initiated by Spokane County that resulted in the installation of sewer lines down many City streets. At that time, rather than have lengthy patches in streets, the City opted to completely reconstruct them.

In 2012 the City opted to use this fund to finance a variety of items including a \$120,000 west gateway project at Thierman; and two street reconstruction projects including one located at 48th and sundown, the cost of which was partially offset by a contribution from Spokane County. Additionally, the City will expend up to \$30,000 in professional services costs that have lead to the City opting to purchase for \$2,500,000 an 8.4 acre parcel of land on Sprague Avenue that is adjacent to Balfour Park. Partially offsetting the cost of the land acquisition cost is a \$744,048 receipt from the Spokane County Library District who will acquire 2.5 of the 8.4 acres initially purchased by the City where they plan to ultimately construct a library building of no less than 30,000 square feet. In order for the library to actually construct a new building on this site, they must first have a successful voted bond issue to provide the necessary financing. In the event the Library District is unable to pass a bond within five-years, they will transfer the property back to the City at the same price it paid for the property, or the \$744,048.

**311 - Pavement Preservation**

This fund was created during the 2011 Budget development process for the purpose of setting money aside for yet to be determined street capital improvement projects. During the 2011 Budget the City Council opted to make an initial transfer of \$500,000 from the General Fund to this Fund #311, and additionally transfer from the General Fund an amount equal to 40% of the General Fund's audited fund balance that exceeded \$26,000,000 as of December 31, 2010. The 2010 ending fund balance was \$27,461,703 which resulted in an additional 2011 transfer of \$548,681 (computed as (\$27,461,703 - \$26,000,000) x 40%).

In the 2012 Budget the City council opted to transfer 100% of the General Fund unreserved fund balance in excess of \$26,000,000 to Fund #311 which computed out to \$2,045,203 (= \$28,045,203 - \$26,000,000). This figure, coupled with the transfers from 2011 resulted in a 2012 appropriation of \$3,129,883 to be directed towards a variety of pavement preservation and street construction projects.

In the 2013 Budget the City has committed to financing pavement preservation at a level equivalent to 6% of 2013 General Fund recurring expenditures which computes out to \$2,054,141 (= \$34,235,677 x 6%). This will be funded with an appropriation of \$855,857 in the General Fund and an additional appropriation of \$1,198,284 Fund #311. Sources of financing for the fund #311 appropriation include transfers-in from Fund #101 of \$282,000; #123 of \$616,284; #301 of \$150,000 and #302 of \$150,000.

Financing pavement preservation at an amount equivalent to 6% of General Fund expenditures through the aforementioned plan is sustainable for approximately 4-years, which will coincide with the ultimate exhaustion of the Fund #123 fund balance. Beyond that point, we anticipate the financial commitment to pavement preservation is sustainable at an annual level of no less than \$1,437,857 including \$855,587 from the General Fund #001; \$282,000 from the Street Fund #101; \$150,000 from the Capital Projects Fund #301; and \$150,000 from the Special Capital Projects Fund #302.

Because this is a Capital Project Fund whose sole purpose is to provide for Pavement Preservation projects, any money not expended in a given year will remain in the fund and will be available for reappropriation in subsequent years.

*Please see the following page for a list of proposed / potential projects in 2013*

Pavement Preservation Fund

Spokane Valley  
2013 Budget

**311 - Pavement Preservation (continued)**

Based upon recommendations in the Pavement Management Plan Update 2011 along with field verification by Public Works staff we are recommending the following preliminary project list of pavement preservation projects for 2013:

STREET	FROM	TO
Sullivan Road	Indiana Avenue	Euclid Avenue
Carnahan Road	8 <sup>th</sup> Avenue	End
Sprague Avenue*	Herald Road	University Avenue
Sprague Avenue	Farr Road	Herald Road
8 <sup>th</sup> Avenue	McKinnon Road	Fancher Road
Argonne Road	Sprague Avenue	Broadway Avenue
Sprague Avenue (EB Only)*	Havana Street	Fancher Road
Sprague Avenue	Fancher Road	Dollar Road
Sullivan Road	Euclid Avenue	Trent Avenue

*\*These are projects recommended by SRTC staff for grant funding.*

If construction bids are lower than our estimates or if grant money is received, then the following list of projects would be recommended for additional pavement preservation projects in 2013:

STREET	FROM	TO
Appleway Blvd	Thierman	Park road
32 <sup>nd</sup> Avenue	University Avenue	Bowdish Road
Blake Road	Saltese Road	24 <sup>th</sup> Avenue
Saltese Road	16 <sup>th</sup> Avenue	McDonald Road
24 <sup>th</sup> Avenue	Pines Road	McDonald Road
Park Road	Valleyway Avenue	Broadway Avenue
Adams Road**	Sprague Avenue	2 <sup>nd</sup> Avenue
Adams Road**	2 <sup>nd</sup> Avenue	4 <sup>th</sup> Avenue

*\*\*These are projects eligible for CDBG funding*

**Please note: Further investigation, testing and evaluation will be necessary to finalize these lists.**

Fund: 312

Capital Reserve Fund

Spokane Valley

2013 Budget

**312 - Capital Reserve Fund**

This is a new fund created in 2013 and it will be used to account for the accumulation of resources for a number of future capital projects. Source of financing in 2013 is a transfer of a portion of the General Fund fund balance in the amount of \$7,826,207. Projects for which resources of this fund are intended include:

- The replacement of the western most portion of the Sullivan Street Bridge that accommodates southbound traffic. Total project cost is estimated to be \$19.75 million and the City has thus far received \$10.0 million in grant commitments to complete the project.
- The acquisition or construction of a City Hall building.
- Development of a joint library and City park site.

Fund: 402

Storm Management Fund

Spokane Valley

2013 Budget

**402 - Stormwater Management Fund**

The Stormwater Management fund accounts for receipt and expenditure of the Stormwater fee. This fee is levied on an annual basis based upon a number of equivalent residential units attached to the parcel. The stormwater funds are used for stormwater management, maintenance and construction of the City's stormwater system.

**Accomplishments for 2012**

- Won grant to install swales on Sprague Ave, expedited design/construction for 2012
- Won grant and started design work with WSDOT to build a Valley regional decant facility
- Designed/Constructed stormwater improvements (Pines/Alki, Dishman-Mica/Appleway)
- Completed/implemented tasks associated with the State mandated Phase II Stormwater Permit
- Continued assessment work on State mandated Underground Injection Control Program
- Completed stormwater assessment rolls, updated the commercial impervious surfaces map
- Bid contracts for Landscaping, and Structure Cleaning Services; renewed sweeping contract
- Secured grant dollars to support sweeping operations

**Goals for 2013**

- Develop and implement ongoing structure inspection program and populate GIS database
- Complete Underground Injection Control (UIC) Assessment and Retrofit Plan
- Eliminate stormwater discharges to the Spokane River from Sullivan bridges
- Continue development and refining a Stormwater Capital Improvement Program
- Continue work with WSDOT to build a decant facility to process/dispose liquid and solid stormdrain debris

**Fund: 403****Aquifer Protection Area****Spokane Valley****2013 Budget****403 - Aquifer Protection Area**

The Aquifer Protection Area Fund was created in 2011 to account for aquifer protection area fees collected by Spokane County and remitted to the City. Historically, Spokane County has collected the fee from local residents and expended the proceeds on projects in Spokane Valley. By mutual agreement, beginning in 2011 all monies collected by the County are now remitted to the City for use in City directed projects that will protect the aquifer.

We estimate the fees will generate annual revenue of approximately \$500,000.

**Fund: 501****Equipment Rental & Replacement Fund****Spokane Valley****2013 Budget****501 - Equipment Rental & Replacement Fund**

The Equipment Rental & Replacement Fund (ER&R) accounts for the cost of maintaining and replacing City vehicles and equipment for all City departments. The ER&R fund is an Internal Service fund. The fund accumulates the resources for vehicle and equipment replacements in the fund. The funds or departments using the vehicle or equipment pay the scheduled replacement fee. Replacement funds are being collected on the telephone system, computer network system, desktop computers, and vehicles. Maintenance and service charges for copiers, telephones, and the internet are also charged to funds through this department. The fund also finances and administers a fleet of pool cars for use by City departments.

The 2013 Budget includes an appropriation of \$50,000 to replace two 2003 S10 Chevy pickups with perhaps two smaller SUVs. An SUV type vehicle is preferred because gear can be more safely stored in the back and not subjected to weather conditions. The reason for the replacement is the two pickups are becoming less reliable and costly to maintain including collectively nearly \$5,000 in repairs in 2012 alone.

\* The pay grades for positions not represented by the Union are 2.5% lower than reflected above because they were not increased by the 2.5% COLA on January 1, 2011

Note:

The current labor contract expires December 31, 2012, and consequently, rather than estimate 2013 wage rates we have elected to include the wage classification scale that was in effect for 2012.

## CITY OF SPOKANE VALLEY

### Glossary of Budget Terms

**Accrual Basis** – A basis of accounting in which revenues and expenditures are recorded at the time they occur as opposed to when cash is actually received or spent.

**Appropriation** – A legal authorization granted by the City Council to make expenditures and to incur obligations for a specific purpose.

**Assessed Valuation** – The valuation set upon real estate and certain personal property by the County Assessor as a basis for levying property taxes.

**Authorized Positions** – Employee positions, which are authorized in the adopted budget, to be filled during the year.

**Bond** – A long-term promise to repay a specified amount (the face amount of the bond) on a particular date (the maturity date). The most common types of bonds are general obligation revenue bonds. Bonds are primarily used to finance capital projects.

**Budget** – A plan of financial activity for a specified period of time (fiscal year or biennium) indicating all planned revenues and expenses for the budget period.

**Budget Message** – The opening section of the budget that provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous years, and the views and recommendations of the Mayor.

**Capital Improvement** – Expenditures related to acquisition, expansion or rehabilitation of an element of the government's physical plant; sometimes referred to as infrastructure.

**Capital Outlay** – Fixed assets that have general value of \$5,000 or more and have a useful economic lifetime of more than one year.

**Capital Project** – Major construction, acquisition, or renovation activities which add value to government's physical assets or significantly increase their useful life, also called capital improvements.

**Capital Projects Fund** – A fund created to account for all resources and expenditures used for the acquisition of fixed assets except those financed by enterprise funds.

**Contingency** – A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

**Contractual Services** – Services rendered to a government by private firms, individuals, or other governmental agencies.

**Debt Service** – Payment of interest and principal on borrowed money according to a predetermined payment schedule.

**Department** – The basic unit of service responsibility, encompassing a broad mandate of related service responsibilities.

**Division** – Can be a subunit of a department which encompasses a substantial portion of the duties assigned to a department (e.g. Building Division in the Planning and Community Development Department).

**Encumbrance** – The commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a specified future expenditure.

**Expense** – Charges incurred (whether paid immediately or unpaid) for operations, maintenance, interest or other charges.

**Face Value** – The amount of principal that must be paid at maturity for a bond issue.

**Fiscal Year** – A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization.

**Full-time Equivalent Position (FTE)** – A full-time or part-time position converted to the decimal equivalent of a full-time position based on 2,080 hours per year. For example, a part-time person working 20 hours per week would be equivalent of 0.5 of a full-time position.

**Fund** – A fiscal entity with revenues and expenses that are segregated for the purpose of carrying out a specific purpose or activity.

**GAAP** – Generally Accepted Accounting Principles. Uniform minimum standards for financial accounting and recording, encompassing the conventions, rules, and procedures

that define accepted accounting principles.

**GASB** – The Governmental Accounting Standards Board, established in 1985, is the current standard-setting board for governmental GAAP.

**General Fund** – The principal operating fund of the City used for general governmental operations. Taxes and fees that generally have no restriction on their use support it.

**General Obligation (G.O.) Bonds** – This type of bond is backed by the full faith, credit and taxing power of the government issuing it.

**Indirect Cost** – A cost necessary for the functioning of the organization as a whole, but which cannot be identified with a specific product, function or activity.

**Infrastructure** – The physical assets of a government (e.g. streets, water, sewer, public buildings, and parks).

**Interfund Transfers** – The movement of monies between funds of the same governmental entity.

**Levy** – To impose taxes for the support of the governmental activities.

**Long-term Debt** – Debt with a maturity of more than one year after the date of issuance.

**Mission Statement** – A broad statement of the intended accomplishment or basic purpose of a program.

**Modified Accrual Accounting** – A basis of accounting in which

expenditures are accrued but revenues are accounted for when they become measurable and available. Since this type of accounting basis is a conservative financial approach, it is recommended as the standard for most governmental funds.

**Operating Budget** – The portion of the budget that pertains to daily operations that provide basic governmental services.

**Ordinance** – A formal legislative enactment by the City Council. If it is not in conflict with any higher form of law, such as a statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies.

**Program** – The smallest organization that delivers a specific set of services. A program may be an entire department; or if a department encompasses significantly diverse responsibilities or large work forces, a single department may be divided into two or more programs.

**Reserve** – An account used to either set aside budgeted revenues that are not required for expenditure in the current budget year or to earmark revenues for a specific future purpose.

**Resolution** – A special or temporary order of a legislative body—an order of a legislative body requiring less legal formality than an ordinance or statute.

**Resources** – Total amounts available for appropriation including estimated revenues, fund transfers, and beginning balances.

**Revenue** – Sources of income financing the operations of government.

**Taxes** – Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those who pay, for example, sewer service charges.

**Unreserved Fund Balance** – The portion of a fund's balance that is not restricted for a specific purpose and is available for general appropriation.

**User Charges** – The payment of a fee for direct receipt of a public service by the party who benefits from the service.

**Vision Statement** – A short statement that conveys the big picture of the organization. It is general in scope, not restricting. It answers the question "Why?"

**CITY OF SPOKANE VALLEY  
SPOKANE COUNTY, WASHINGTON  
ORDINANCE NO. 12-024**

**AN ORDINANCE OF THE CITY OF SPOKANE VALLEY, SPOKANE COUNTY, WASHINGTON, ADOPTING A BUDGET FOR THE PERIOD JANUARY 1, 2013 THROUGH DECEMBER 31, 2013; APPROPRIATING FUNDS; CREATING NEW FUNDS: 312-CAPITAL RESERVE; RENAMING FUNDS: 311-PAVEMENT PRESERVATION; ESTABLISHING SALARY SCHEDULES FOR ESTABLISHED POSITIONS; AND OTHER MATTERS RELATING THERETO.**

WHEREAS, State law requires the City Manager to prepare a preliminary budget for the City of Spokane Valley at least sixty (60) days before the beginning of the City fiscal year beginning January 1, 2013 and ending December 31, 2013; and

WHEREAS, the City Manager in consultation with the Finance Director and Department Heads has prepared and placed on file with the City Clerk a preliminary budget, together with an estimate of the amount of money necessary to meet the expenses of the City including payment of outstanding obligations; and

WHEREAS, notice was posted and published for public hearings held on August 28, September 25 and October 9, 2012. The City Council met and received public comment in the City Council Chambers during each public hearing; and

WHEREAS, proper notice was given and the preliminary budget was filed with the City Clerk; and three public hearings on the budget were conducted following proper notice; and

WHEREAS, the City Council desires to adopt the 2013 budget, including all allowances, and an appropriation for each fund; and

WHEREAS, the City of Spokane Valley property tax levy in 2012 for collection in 2013, will be \$10,818,717, which represents a 0% increase in the 2013 levy. This levy is exclusive of additional revenue resulting from new construction, improvements to property, any increase in the value of State assessed property, any annexations that have occurred, and refunds made.

NOW, THEREFORE, the City Council of the City of Spokane Valley do ordain as follows:

**Section 1. Adoption of 2013 Budget.** The budget for the City of Spokane Valley for the year 2013 is adopted at the fund level. The final budget for 2013 is attached hereto and by this reference is incorporated herein pursuant to RCW 35A.33.075. For summary purposes, the total estimated appropriations for each separate fund plus the aggregate total for all such funds is set forth as follows:

Title	Estimated Beginning Fund Balance	Revenues	Total Sources	Appropriations	Estimated Ending Fund Balance
001 General Fund	\$25,630,608	\$35,124,700	\$60,755,308	\$42,967,741	\$17,787,567
101 Street Fund	1,961,271	4,766,100	6,727,371	4,903,999	1,823,372

Total of all Funds	\$43,698,313	\$62,026,183	\$105,724,496	\$63,570,333	\$42,154,163

The total balance of all funds appropriated for 2013 is \$63,570,333.

**Section 2. Creating Fund 312.** There is hereby created Fund 312 Capital Reserve Fund which will be used to accumulate resources for the replacement of a portion of the Sullivan Street Bridge, the acquisition or construction of a City Hall building, and the development of a joint library and City park site.

**Section 3. Renaming Fund 311.** Fund 311, entitled "Street Capital Improvement 2011+" is hereby renamed "Pavement Preservation Fund."

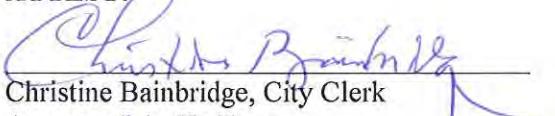

**Section 4. Transmittal of Budget.** A complete copy of the budget as adopted, together with a copy of this Ordinance shall be transmitted by the City Clerk to the Division of Municipal Corporations in the Office of the State Auditor and to the Association of Washington Cities.

**Section 5. Severability.** If any section, sentence, clause or phrase of this Ordinance shall be held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of any other section, sentence, clause or phrase of this ordinance.

**Section 6. Effective Date.** This Ordinance shall be in full force and effect five days after the date of publication of this Ordinance or a summary thereof in the official newspaper of the City.

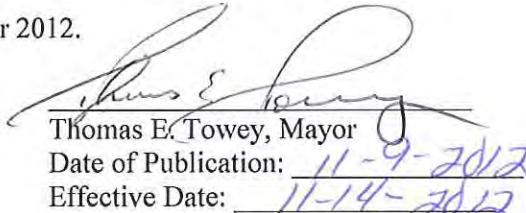

PASSED by the City Council this 30<sup>th</sup> day of October 2012.
